

Nasal Irrigator(Adult)

This is a highly effective, easy to use nasal rinse device, helps to quickly soothe and relieve nasal symptoms and congestion associated with cold & flu, allergies, sinusitis, rhinitis, and dry air - it is a practical product for individual daily nasal care.

Description:

- Simple design, Prevents over insertion and dispenses liquid or solution effortlessly
- Relief from nasal congestion, allergies, sinus symptoms, and post-nasal drip
- Swirl stream tip for gentle swirl for an effective large volume, low pressure nasal rinse
- Syringe Delivery System allows maximum control over the pressure and duration of rinse
- Controllable pressure,uniform water flows,and syringe design to avoid pressure imbalance
- EASY TO USE: After cleaning,just screw back the nasal suction tip to reuse.The silicone nasal suction tip and 30ml/60ml portable irrigator make it easier to flush nasal mucus from the nasal cavity
- SAFE AND HIGH QUALITY:The nasal irrigator uses non-toxic and odorless high-quality silicone nasal suction tips and environmentally friendly plastic irrigator cartridges,which are absolutely safe for adult and can be used safely by children.
